# Darkest dungeon crimson courtyard guide

The courtyard dungeons can be up to more than 50 or even more than 100 rooms. Sacred water: pour into fountains to increase the resistance of crimson curse. Torches cannot combat stress due to the dark, but they can be used for curiosity to significantly reduce stress. The infestation will spread to the dungeons, causing blood enemies to appear. There are many, many branch roads, closed doors that require special keys that are located in the dungeon, and do not camp, unless you bring a shovel to crush the boxes with wine and collect wood. The courtyard, an exclusive new location for the darker dungeon - the Crimson Court DLC - is a place of madness and murder - and we're here to provide some tips to help you survive the horror. Note: The TORDARD is always about blood; there is a permanent debuff + stress at all times. You can enter more battles with opponents in the yard and kill them by blood if it gets completely dry and needs more. However, torches are not useless, what you use them will increase your accuracy in battle, and can be used to destroy curiosity of the yard. Stress is a problem as stated above, the yard is in a constant state of blood light. Be prepared for the curse of blood, the enemies of the courtyard will extend their curse of blood to their heroes, and if you enter the courtyard or any dungeon with infestation, I will contract the disease. The cruelty of the courtyard is stiff and quick, and infects the rest of your adventure with the narrow divides of two families they offer. Kill the guards to collect the invitations from the courtyard; they are obliged to access the courtyard after completing the first mission. It's best that you don't try to take over this area until you're ready for assembly, at least. Blood: keep abundant to feed infected heroes, and give it to the hooded beggar for your booty. When you are afflicted, there is no permanent cure (till later), you will have to collect Bloodsucker's blood. Bloodsucker. And just to keep the hairs afflicted by the desire / waste of cursing. It is a deadly place, and we will break down what you need to know before entering this ridiculously cruel location. There is no way to avoid it. MAZORAS SO DERGTH: CARMENTS CARMENTS GUIDES IN THE SABLE: The courtyard is a special place populated by blood seekers, only enemies who can (at random) make their Her Roes hire the disease of crimson cursing. Unlock the new district in the city that supplies two blood vials every week. But, there is a way to prepare. Torches: It is not used to reduce stress / increase the level of light. The hallways in the courtyard are long enough so that they can reach 20 squares. It is a deadly place, and the activating it too early will cause infestations, fanatic problems and other problems that will make regular exploration much difficult. Note: Login to the yard is only for the final levels. At the maximum level, the doorman will appear. Medicinal herbs: Use in food trays to get a lot of food. These cruel, blood-thirsty abominations are not their regular vampires. The guardians are unique enemies that always take invitations to the patio. To draw in more blood choupers, interact with curious in dungeons. Bandage: You can clean strange bone batteries for random treasure or blood. Enter the patio at your own risk. The occultists will not work as a primary healer in the courtyard. Blood lanterns decrease more resistance, which makes WYRD reconstruction even worse in circumstances. The first search does not require an invitation. Use the torches in the throbbing cocoons to win +30 healing of stress, or uses in the sleeping hives to get a treasure se se ergnas al reart. ©Äuq" -ä Ä senicispsid .oitap le ne selbarenlv etnemlaicepse nos satsitlucio satsitlucio sagiart oN .atseif us a renetnam arap etneicifus se on ergnas al ed ergnas al raeuqas artxe ergnas al s;ÄratiseeN .gnilaeH .gnilaeH ssertS 03+ / erusaert rof snoocoC gnibborhT / seviH gnignorhT nrub naC .serts desaercki esuac seimene rekusdoolB tub ,taht yno toN .doowerif tcelloc ot eniw fo setarc hsams ro ,erusaert modnar rof srewoldoolB ro snotelekS degaC tneicA no esU :levoh S .lufereac ton erÄÄÄÄ Äuoy fi tsaf sdaerps ,esruC nosmirC eht dellac ,esaesid riehti dna ,stecni laretil era srekcusdoolB eht .esruC nosmirC eht fo noitcefnit eht gnithgif dna sserts gniganam tuoba lla si draytruoc eht .noitatsefni kolnuo osla lliw draytruoc eht fo sim tsrif eht gnitelpmoC draytruoc eht retne ot woH .erauqs rep sserts fo tniop 1 tuoba Ä Ä na ,no ylræe elbaliava si draytruoc eht eguH si draytruoc eht .thgim yllamron uoy sa sehscrot ynam sa gnirb ot deen tÄ erom eht .noegnud draytruoc Ä gniretne erofeb no pu kcoots ot noisvorp tnatropmi tson elgins
